YOUR HOME IS A SAFE HAVEN and Echelon® residential ornamental aluminum fence not only provides safety and security, but also adds both value and beauty to your investment. Most typical backyard fences show wear and tear due to lawn equipment, falling tree limbs, meter readers and playing children. Echelon was designed with all these things in mind and provides a durable, long-term, maintenance-free solution.

The reinforced cross-section of the ForeRunner® rail is stronger than comparable residential aluminum fencing. With this additional strength, higher quality powder coated finish, and fully welded gates, you can be assured years of maintenance-free value.

## THE ECHELON® DIFFERENCE

### Echelon ForeRunner® *Internal Locking System*

- Internal rod is tamper proof and pickets cannot be removed
- Retainer rod is hidden and rail has a “good neighbor” appearance
- Retainer goes through two walls of picket, yielding twice the support

### Competitors U-Channel *Removable Tek Screws*

- Picket attachment can easily be compromised with simple tools
- Exposed Tek screw detracts from a smooth architectural profile
- Tip of Tek screw barely engages one wall of picket
